

SCHOOL BOARD IN GOOD SHAPE

Financial Statement Shows It
Is \$75,000 Better Off
Than a Year Ago.

OVERDRAFT IS MADE UP

BALANCE ON HAND JUNE 30
OF \$40,000.

In the annual financial statement of the board of education prepared by L. P. Judd, clerk, it is shown that the board is \$75,000 better off now than it was a year ago.

The balance on hand June 30, 1908, was \$40,454.70, while the overdraft on June 30, 1907, was approximately \$50,000. Of the \$40,000 balance, however, \$12,000 is part of the recent \$250,000 bond issue, being the certified check accompanying the bid of the buyers. Deducting this amount and several smaller items the actual balance in the regular funds approximates \$28,000, which measured against the \$60,000 debt paid in the past year makes the \$75,000 improvement in condition.

The statement shows that \$650,500.44 was received from all sources during the past

Syrup of Figs and Elixir of Senna

Cleanses the System Effectually. Disperses Colds and Headaches due to Constipation. Acts naturally, acts truly as a Laxative.

IN RAILROAD CIRCLES.

Eight railroad men left Salt Lake last

Sunday evening for a two weeks' tour

of the northwest and Canada. They went

from here to Butte, and from that city

will travel over the Great Northern and

other lines, and then go east over the

Canadian Pacific. They will return over

the Union Pacific by way of Omaha. In

the party are A. B. Stevenson, superin-

tendent of the Utah division of the Ore-

gon Short Line, Salt Lake; C. H. Ren-

no, roadmaster Idaho division, Pocatello;

H. J. Plumb, chief clerk in the office of

General Superintendent J. M. Davis;

A. Moquist, roadmaster Nevada and Cal-

ifornia divisions; C. L. Eldred, trainmaster

Idaho division, Pocatello; H. A. Roberts,

division engineer Montana division; Poca-

tello; J. E. Davis, chief dispatcher Idaho

division, Kemmerer, Wyo.; and J. McCar-

thy, trainmaster Salt Lake division, Og-

den.

T. M. Schumacher, formerly traffic

manager of the Oregon Short Line, who

is now general freight agent of the El

Paso & Southwestern railroad, arrived

in Salt Lake yesterday from Chicago, ac-

companied by General Passenger Agent

Gorman of the Santa Fe. He left last

night for Yellowstone national park with

Mr. and Mrs. Gorman.

F. H. Clark, superintendent of motive

power of the Burlington railroad, passed

through Salt Lake yesterday on his way

back to Chicago from California. He was

accompanied by his family. While here

Mr. Clark was entertained by J. F. Dunn

of the Oregon Short Line.

The annual report of the Union Pacific's

pension department shows that from Fe-

b. 1, 1902, to June 30, of this year, \$81,841.83

was paid, the number of pensioners on

JOY IN STORE FOR THE SMALL BOY WHEN CIRCUS COMES TO TOWN

Now doth the busy blipster with paste and brush cover the dead walls and fences with pictures of strange animals and wonderful feats, for the circus is coming to town. "Barnum & Bailey's Greatest Show on Earth" will be in the city on Tuesday next to spread his canvas city.

There is joy in store for the small boy and his little sister, not to mention a few grown-ups.

There is a lot to be said about this year's circus that has been said about other circuses in the past, and then some more. The show man in the city says that it will be found to be the biggest thing of its kind that this world has ever known. It takes more care to carry it and its tents cover more ground than is made necessary for the display of any other circus ever organized. There are twenty divisions on the circus program calling into service 375 performers, 200 of whom are the pick of the circus celebrities of Europe. Many of the acts are new, novel and not a few bewildering and sensational. Mirth and astonishment go hand in hand, for with every sensational feature there comes the biggest bunch of clowns to cajole the audience into laughter. The big thrill on the bill is the race of two automobiles driven by young women in the air. It is one big gasp and for sensationalism it has all of the

circus thrillers which have gone before it hidden away in an English joke.

One piece of circus news that is sure to please a lot of people is the fact that for the first time in four years the Barnum & Bailey managers are this season giving a circus parade. One of the first things that the managers did at their meeting in the fall was to decide to revive the street parade on a great big scale. They admit that the public demanded the parade and that it is foolish to go against the public will. So that they might be forgiven for the omission of the parade past seasons they have made the present parade the biggest thing of its kind that has ever been placed on the streets. It will contain all kinds of wonders and novelties to delight the large curb-stone audience that is certain to assemble to see it. All of the parade features are new and handsome. In a way the parade will be an enormous moving horse show, there being over 600 fine equines, embracing all types, in line. In Philadelphia, Washington, Baltimore and Boston the parade was greatly praised for features which were looked upon as unusual for a parade of its character.

Thus far the tour of the circus has been enormously successful, which is attributed to the fact that the entertainment is the best that has yet been given under the Barnum & Bailey banners.

The roll in the month last named being eighty-seven. The total amount paid in the last year was \$22,621.35, the monthly average being \$1,885.11 and per pensioner \$21.84. During this period eighteen employees applied for pensions, three of whom were rejected. The number who died was eleven, a total of 24 since February, 1903. The department was established on Oct. 1, 1902, the company contributing \$100,000 to begin the fund, and agreeing to pay into it not less than half that amount annually.

Twenty-eight new locomotives, worth about \$500,000, are said to be tied up at Denver as the result of the strike of the shopmen on the Denver & Rio Grande railroad.

The engines were bought by the railroad company with borrowed money, it is said, and a mortgage was given to the men from whom the money was secured. The twenty-eight engines were delivered last spring just before the strike.

They would have been used by the railroad had it not been for the men who held the mortgage, who refused to permit the locomotives to go out upon the line while the strike was on.

It is stated that one result of the recent gathering of officials of the Harriman lines at Reno will be the construction of a Southern Pacific branch from Reno to Los Angeles.

The proposed route is south over the Hazen cutoff to Mina, from Mina to Lone Pine over the old C. & N. line, and from Lone Pine through Owens valley to Los Angeles over the new road being completed from Mojave to Lone Pine.

John A. Reeves, general freight agent of the Oregon Short Line, has returned from his trip to Nevada.

REAL ESTATE NEWS.

Real estate men report that inquiries for property continue as brisk as ever. An unusual number of sales are being made for this time of the year.

Luther Sinclair has purchased the five-room pressed brick house at 1045 East Eleventh South street from the Hubbard Investment company for \$2,500. Other sales made by the Hubbard company were:

George A. Smith sold to Joseph Hepworth the three-room frame dwelling at 810 West Third North street for \$800. Thirteen lots in Oakley addition, in the vicinity of Oakley avenue and Seventh North street, and three lots in the East Boulevard addition, near Fifth East and Eleventh South streets, were sold to Montana investors.

Ground has been bought in Oakley avenue, between Fifth North and Sixth North streets, Oakley addition, by the American Sunday School union. An attractive pressed brick church is to be erected there. Plans for the church have been drawn by Headlund & Woods, architects.

The Real Estate association will meet at the Commercial club tomorrow afternoon at 12:15 o'clock.

During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. For sale by the F. J. Hill Drug Co., "The Never-substitutors."

DISTRICT COURT NOTES.

Christopher Cramer yesterday filed an answer to the suit brought by his sons, Ernest and Bernard Cramer, for an accounting of their partnership in the floral business in which he alleges that the sons have received everything belonging to them.

An amended complaint was filed yesterday in the suit brought by Amos Wal-

ter against Frank D. French, increasing the amount which Walther says he loaned Mrs. French for her support from \$341 to \$381. Walther is a brother of Mrs. French whose suit for divorce was recently taken under advisement by Judge Charles W. Morse.

Taste the Maple Flavor. One Package Free

We want your children to know this enticing maple flavor. So we offer to buy the first package of **Mapl-Flake**. No child will be content without it then.

We spend 96 hours to prepare **Mapl-Flake**, yet flaked foods can be made in one-fourth of that time.

Our wheat is steam-cooked for six hours—cooked in pure maple syrup. Then it is cured for days.

Then each separate berry is flaked as thin as paper, so the full heat of our ovens can penetrate.

Then those thin flakes are toasted 30 minutes in a heat of 400 degrees.

That long process is necessary to perfect digestion. Every food expert knows this.

The particles must be separated, by heat and by cooking, so the digestive juices can get to them.

Otherwise half of the food is wasted. It ferments and irritates the stomach lining.

Even mere economy demands **Mapl-Flake**—the one food that's all food—the food that will all digest.

To make the best food most delicious, we cook the wheat in pure maple syrup.

We do this to make the flavor enticing, so children will want it. You don't need to urge them to eat it.

If you serve them afterward an inferior food, they'll urge you back to this.

It is well to have it so. For no other cereal—none of the fad-foods—is half so good for children as this perfect wheat.

In these hot days, when meat is too heating, **Mapl-Flake** is most important.

It is the ideal food for summer. It gives the maximum of nourishment, and produces the minimum heat.

Comfort and health demand it. Every summer breakfast should consist solely of **Mapl-Flake** and fruit. A good way to serve them is to mix them together.

One Package Free

We want you to try this ideal food, if only for the children's sake. Try it at our expense.

Compare it with fad foods, if you have used them. Judge for yourself which is best.

Ask your children their opinions. They are the ones to please.

Please send us this coupon—now before you forget it. We will then send you an order, good at your grocer's, for a full-size package free. Then let this perfect food, on your table, argue for itself.

Cut Out This Coupon

and mail it to the Hygienic Food Co., Battle Creek, Mich.

I have never used **Mapl-Flake**, but if you will send me an order on my grocer for a 15c package free, I shall be glad to try it.
